January 2024 eNewsletter

Dear Lagos Engineers, we present for your reading pleasure this month edition of our e-newsletter containing the branch activities in January 2024

NSE Lagos branch January executive meeting was held on Tuesday 16th January 2024

NSE Lagos branch held January 2024 general meeting on Tuesday 23rd January with technical presentation by Engr. Dr. Oluwatoyin Jegede, titled “ Nigerian Engineers: H1 stakeholders in Disability Prohibition Act

The facilitator introduced the topic with discrimination against persons with disability and that the Act was signed to law in 2019, which forbids all forms of discrimination against persons living with disability etc, the bill also compel employers to provide opportunity to gainful employment etc, Further, she said according to UN Nigeria has a growing population of persons with disability and that the society must be prepared for their full economic and social participation. She then discussed the lecture with the following subheadings,

Discrimination against persons with disabilities (prohibition) act

Engineers HI (High impact and influence) stakeholder role in the society

Influence of Nigerian Engineers on disability prohibition act (DPA)

Disability access (accessibility) consulting opportunities

In conclusion, Engr Dr Jegede indicated that engineers have highy impact and influence on the successful implementation of strategies that can make DPA a success and there are also opportunities for engineers to explore the field of disable access/accessibility consulting in Nigeria

NSELB Fellows and members paid a condolence visit to the family of late Engr. Phillip Bolude Oyebolu, FNSE at his residence Bolude Oyebolu drive, Obasanjo way, Abeokuta on Thursday 25th, January 2024
